

DENTISTS

of DISTINCTION

This month's celebration of excellence features dentists who have stories to tell about their practice and professionalism. In the coming months, we will focus on other industries and individuals who make a difference in our city.

Gary Michaelson, D.M.D.

Born and raised outside of Boston, Dr. Gary Michaelson completed his undergraduate studies at Brandeis University, Boston, Mass., in 1982. He studied dentistry at the University of Florida College of Dentistry, Gainesville, graduating in 1986. He has received advanced training at the University of Florida Aesthetic Continuum (1999), the Pacific Aesthetic Continuum (PAC-live) (2000) and the Las Vegas Institute (LVI) for Advanced Dental Studies (2003).

A member of the Academy of General Dentistry, American Academy of Cosmetic Dentistry and the Florida Academy of Cosmetic Dentistry, Dr. Michaelson has practiced in East Orlando since 1990. Over the past 15 years, he has traveled throughout the United States, spending thousands of hours in seminars, study clubs and other continuing education courses to stay current on advances in the field. His commitment to total patient care and comfort has earned Dr. Michaelson great success, resulting in the 2002 opening of a state-of-the-art facility that takes dental care to a new level.

Dr. Michaelson's practice – Alafaya Center for Cosmetic & Family Dentistry – focuses on cosmetic and restorative treatments in a relaxing spa environment. Services include porcelain veneers, whitening, porcelain crowns, porcelain bridges, bonding, white fillings, dentures, partials, root canals and cleanings with keen attention to providing the highest quality of care, aesthetic benefits and patient comfort. Each treatment room is brightened by a large window offering a tranquil garden view. Patients can choose from such spa amenities as paraffin wax for the hands, warm aromatherapy wraps for the neck, chilled herbal eye pillows and massagers for the neck and back. As their procedure is performed, patients are given blankets and pillows and may watch a DVD, listen to a meditation CD, or view TV programming. Patients are given a warm scented towel following treatment.

Through the integration of the latest dental technology, years of experience and use of the highest quality dental materials, Dr. Michaelson offers patients exceptional long-term aesthetic results and an exceptionally comfortable, enjoyable experience.
